

MAINTENANCE

MAINTENANCE SCHEDULE

Periodic maintenance, in accordance with the schedule on the following page, is necessary to ensure continued trouble free operation and peak performance. For each service operation make reference to the respective page indicated in this MAINTENANCE SCHEDULE. Sustained severe or high speed operation under adverse conditions may necessitate more frequent servicing. To determine specific recommendations for conditions under which you use your motorcycle, consult your authorized

HONDA dealer. If your HONDA CB500 is ever overturned or involved in a collision, have your HONDA dealer carefully inspect the major components, e.g., frame, suspension and steering parts, for misalignment or damage to ensure further safe operation.
