## (Information you need to operate this scooter)

### BRAKES

Brakes are items of personal safety and should always be maintained in proper adjustment.

The distance the front brake lever or rear brake pedal moves before the brake starts to engage is called free play.

Measured at the tip of the brake levers, free play should be maintained at:  
10 – 20 mm (0.4 – 0.8 in)

- (1) Front brake lever
- (2) Rear brake lever
