FINAL DRIVE OIL

Oil Level Check

Check the final drive oil level when specified by the maintenance schedule.

- 1. Place the motorcycle on its center stand on firm, level ground.
- 2. Remove the oil filler cap.
- 3. The oil level should be flush with the lower edge of the oil filler hole.

NOTE:

 If the level is low, check for leaks. Add the recommended oil through the oil filler hole until it reaches the lower edge of the opening.

Recommended Oil: HYPOID GEAR OIL SAE 80
