

## TIRES

The tires are designed specifically for vigorous off-road use, they are not immune to punctures. Always select your riding area with care.

### WARNING

\* *The TRX is not designed to be driven on paved surfaces. Handling and control will be severely affected.*

Check tire pressure frequently with the air pressure gauge supplied with this TRX.

Tires should be inflated to the recommended pressure.

### NOTE:

\* Tire pressure should be checked when the tires are “cold,” before you ride.
