

Is Your ATV Ready to Ride?

Before each ride, it's important to inspect your ATV and make sure any problem you find is corrected. A pre-ride inspection is a must, not only for safety, but because having a breakdown, or even a flat tire, can be a major inconvenience.

If your ATV has overturned or been involved in a collision, do not ride the vehicle until it has been inspected by your Honda dealer. There may be damage or other problems you cannot see.

⚠ WARNING

Improperly maintaining this ATV or failing to correct a problem before riding can cause a crash in which you can be seriously hurt or killed.

Always perform a pre-ride inspection before every ride and correct any problems.

Pre-ride Inspection

Check the following items before you get on the ATV:

- | | |
|-------------------|---|
| <i>Engine Oil</i> | Check the level and add oil if needed (page 111).
Check for leaks. |
| <i>Fuel</i> | Check the level and add fuel (page 106) if needed. Also make sure the fuel fill cap is securely fastened.
Check for leaks. |
