

Provide Good Instruction

Because good instruction is an important part of learning how to ride, we strongly recommend that young riders take the **free hands-on training course** Honda offers to all new Sportrax owners and immediate family members. We also recommend that you take or observe the course with your youngster. This will enable you to better understand proper riding techniques and safety messages.

To enroll in a class in your area, call 1-800-887-2887 (USA only).

Even if a youngster takes a certified training course, it's up to you to ensure your youngster's safety. Remember, learning to ride a Sportrax is a gradual step-by-step process. It takes time, patience and practice.

To help you regulate your youngster's rate of learning, your Sportrax was delivered with an **adjustable throttle limiter** and an **air restrictor**. We recommend that all beginning riders start off with the throttle limiter adjusted as delivered. The limiter may be adjusted to gradually increase maximum speed as the beginner becomes more familiar with operating the Sportrax. For adjustment and removal instructions, see pages 81-84.
