

## Important Message to Parents

MENTAL AND EMOTIONAL MATURITY maturity are also necessary for safe riding. Does your youngster think through problems and come to logical solutions? On a bicycle, does your youngster obey safe riding rules? Be honest! Young people who take unnecessary risks, make bad judgments and don't obey rules are not ready to ride this ATV.

Also, it is necessary to evaluate your youngster according to the evaluation sheet. See *Introduction* in this Owner's Manual.

### Instruction and Supervision

If you decide that your youngster is ready to safely operate this ATV, make sure both of you carefully read and understand the Owner's Manual before riding.

Also be sure that your youngster always wears a helmet and other appropriate riding equipment when operating or sitting on it (page 38).

Because good instruction is an important part of learning how to ride, we strongly recommend that young riders take the free hands-on training course Honda offers to all new ATV owners and immediate family members. We also recommend that you take or observe the course with your youngster. This will enable you to better understand proper riding techniques and safety messages. Even if a youngster takes a certified training course, it's up to you to ensure your youngster's safety. Remember, learning to ride an ATV is a gradual step-by-step process. It takes time, patience and practice.
