

## **PARKING**

1. After stopping the motorcycle, shift the transmission into neutral and turn the fuel cock OFF and turn the handlebar fully to the left. Push the engine stop button in and hold it in until the engine stops completely.
2. Use the side stand to support the motorcycle while parked.

### **CAUTION:**

- \* **Park the motorcycle on firm, level ground to prevent it from falling over.**
- \* **If you must park on a slight incline, aim the front of the motorcycle uphill to reduce the possibility of rolling off the side stand or overturning.**

## **ANTI-THEFT TIPS**

1. Always lock the steering and never leave the key in the steering lock. This sounds simple but people do forget.
2. Be sure the registration information for your motorcycle is accurate and current.
3. Park your motorcycle in a locked garage whenever possible.
4. Use an additional anti-theft device of good quality.
5. Put your name, address, and phone number in this Owner's Manual and keep it on your motorcycle at all times. Many times stolen motorcycles are identified by information in the Owner's Manuals that are still with them.
