**3 Activating/deactivating of tripmeter A, average fuel mileage and fuel consumption automatic reset mode:**

You can also activate or deactivate the automatic reset mode by refueling after 1st (E) segment of the fuel gauge starts flashing. Deactivation is initially set.

❶ Press `SEL` button to select "On"(activate) or "OFF" (deactivate) in the automatic reset mode.

❷ To end the selection, press `SET` button. The activation/deactivation of automatic reset mode is set, and then the display moves to the changing of the speed and mileage unit.
