

## Engine Oil & Filter

---

7. Remove the dipstick and check the oil level.
  - If the oil is at or near the upper level mark (2) — you do not have to add oil.
  - If the oil is below or near the lower level mark (3) — remove the oil filler cap (4) and add the recommended oil until it reaches the upper level mark. (Do not overfill.)
8. Reinstall the oil filler cap.
9. Reinstall the dipstick.
10. Check for oil leaks.

### Changing Engine Oil & Filter

Refer to *Safety Precautions* on page 92 .

Your motorcycle's oil filter has very specific performance requirements. Use a new Honda Genuine oil filter or a filter of equal quality specified for your model.

#### NOTICE

*Using the wrong oil filter may result in leaks or engine damage.*
