

Tyres & Tubes

Tyre Replacement

The tyres that came on your CRF were designed to provide a good combination of handling, braking, durability, and comfort across a broad range of riding conditions.

⚠ WARNING

Installing improper tyres on your motorcycle can affect handling and stability. This can cause a crash in which you can be seriously hurt or killed.

Always use the size and type of tyres recommended in this owner's manual.

U, DK type

Front	80/100-21 51M	
	DUNLOP	D742F
Rear	110/100-18 64M	
	DUNLOP	D756
Tyre type	bias-ply, tube	

ED type

Front	90/90-21M/C 54R	
	BRIDGESTONE	ED663
Rear	140/80-18M/C 70R	
	BRIDGESTONE	ED668
Tyre type	bias-ply, tube	

- Use a replacement tyre equivalent to the original.
- Replace the tube any time you replace a tyre. The old tube will probably be stretched and, if installed in a new tyre, could fail.
