

Answer Back System

The answer back system is a device to find the location of your motorcycle. When you press and hold the answer back button on the Honda SMART Key with the ignition switch OFF or **L** (Lock), your motorcycle informs you the location by blinking the turn signal lights, and sounding the horn three times.

The answer back system uses low-intensity radio waves. It may affect medical equipment such as a cardiac pacemaker.

Operation

Press and hold the answer back button on the Honda SMART Key.

- ▶ The answer back system will not function when the ignition switch is ON.
- ▶ When the 30 days have passed after the ignition switch is turned to OFF or after the buttons of the Honda SMART Key is operated, the answer back system will no longer operate. To reset the system, turn the ignition switch ON once and then OFF.
- ▶ To turn the ignition switch ON  **P. 49**

NOTICE

When the battery in the motorcycle is weak, the answer back system may not function.
