## Spray Cleaning Your Motorcycle

Refer to *Safety Precautions* on [page 154](#).

Avoid using spray cleaner products on the tires or suspension components.

Suggestions for using spray cleaner(s) follow:

<b>Motorcycle Condition</b>	<b>Recommended Cleaning</b>
General cleaning. Polishing paint, chrome, glass, and clear plastic. Dust. Fingerprint smudges.	Apply a spray cleaner/polish and wipe with a non-abrasive cloth.
Light road grime.	Spray any difficult-to-reach or very dirty areas with a spray cleaner/degreaser. Rinse and dry. Apply a spray cleaner/polish and wipe with a non-abrasive cloth.
Heavy grime. Oil leaks. Brake dust.	Use a spray cleaner/degreaser. If necessary, rub with a sponge. Rinse and dry. Apply a spray cleaner/polish and wipe with a non-abrasive cloth.
Dull, corroded chrome or aluminum.	Apply a high quality chrome/aluminum polish and wipe with a non-abrasive cloth.
