

## Pictograms

The meanings of the labels are explained on the following pages. Some labels warn you about potential hazards that can cause serious injury. Others provide important safety information. Read this information carefully and do not remove the labels.

If a label comes off or becomes difficult to read, contact your dealer for replacements.

Each label has a specific symbol.  
These symbols mean the following:

Read the instructions in the Owner's manual carefully.

Read the instructions in the Shop manual carefully. For your safety, only take your motorcycle to dealerships affiliated with your distributor for service and maintenance.
