

Side Nets

Roll Up The Side Nets

The side nets can be rolled up to make cleaning and maintaining your Honda SXS a little easier.

Front Side Nets Roll Up

1. Release the side net buckle and side net D-rings.
2. Roll up the side net tightly, folding in the buckle and side net D-ring belts on the way.
3. Hook the upper side net hook to the top edge of the side net.

Front Side Nets Roll Down

1. Unhook the upper side net hook.
2. Fasten the side net buckle and tighten the belt of the side net D-rings.

Always return the side nets to their normal positions, properly fastened, and tightened before driving.
