

# Side Nets

## Roll Up The Side Nets

The side nets can be rolled up to make cleaning and maintaining your Honda SXS a little easier.

### Front Side Nets Roll Up

1. Release the side net buckle and side net D-rings.
2. Roll up the side net tightly, folding in the buckle and side net D-ring belts on the way.
3. Hook the upper side net hook to the top edge of the side net.

### Front Side Nets Roll Down

1. Unhook the upper side net hook.
2. Fasten the side net buckle and tighten the belt of the side net D-rings.

Always return the side nets to their normal positions, properly fastened, and tightened before driving.
