

# Spark Plugs

---

## Spark Plug Recommendation

standard spark plug	SILMAR7A9S (NGK)
---------------------	------------------

Use only the recommended type of spark plug in the recommended heat range.

### NOTICE

*Using spark plugs with an improper heat range can cause engine damage.*

This SXS uses spark plugs that have an iridium coated center electrode.

Be sure to observe the following when servicing the spark plugs.

- Do not clean the spark plugs. If an electrode is contaminated with accumulated objects or dirt, replace the spark plug with a new one.
- To check the spark plug gap, use a “wire-type feeler gauge” only. To prevent damaging the iridium coating of the center electrode, never use a “leaf-type feeler gauge.”
- Do not adjust the spark plug gap. If the gap is out of specification, replace the spark plug with a new one.
