

# Basic Operation

---

## Parking

Look for a clear, level parking area with a firm surface. Avoid parking on a slope or on loose or slippery surfaces, if possible. If you must park on a slope, block the wheels to help keep the vehicle from sliding.

After bringing your vehicle to a stop:

1. Keep your foot on the brake pedal while you shift into the park (P) position.
2. Slowly release the brake pedal.
3. Turn the ignition switch to the OFF (w) position, and remove the key.
