

Important Message to Parents

MENTAL AND EMOTIONAL MATURITY maturity are also necessary for safe riding. Does your youngster think through problems and come to logical solutions? On a bicycle, does your youngster obey safe riding rules? Be honest! Young people who take unnecessary risks, make bad judgments and don't obey rules are not ready to ride this ATV.

Instruction and Supervision

If you decide that your youngster is ready to safely operate this ATV, make sure both of you first carefully read and understand the instructions and warnings in this owner's manual. Also be sure that your youngster always wears a helmet and other appropriate riding equipment when operating or sitting on it (page 30).

Because good instruction is an important part of learning how to ride, we strongly recommend that young riders take the free hands-on training course Honda offers to all new ATV owners and immediate family members. We also recommend that you take or observe the course with your youngster. This will enable you to better understand proper riding techniques and safety messages.

To enroll in a class in your area, call 1-800-887-2887.

Even if a youngster takes a certified training course, it's up to you to ensure your youngster's safety. Remember, learning to ride an ATV is a gradual step-by-step process. It takes time, patience and practice.

To help you regulate your youngster's rate of learning, your ATV was delivered with an adjustable throttle limiter and an air restrictor. We recommend that all beginning riders start off with the throttle limiter adjusted as delivered. The limiter may be adjusted to gradually increase maximum speed as the beginner becomes more familiar with operating the ATV. For adjustment and removal instructions, see pages 46 – 48 .
